

With its 1400mm working width, the SEAL 54 EL laminator represents an entry level package at an affordable price. It is designed for the sign and display market and offers the user the trademark SEAL flexibility & functionality, making it ideal for mounting and laminating pressure sensitive solutions.

The SEAL 54 EL is a high quality, cold roller laminator specifically designed for new users to confidently create professionally finished wide-format graphics. Built for safety and ease-of-use, the 54 EL is just right for laminating and mounting pressure sensitive graphics up to 1400mm wide.

It's durable uni-frame (one piece) construction requires no assembly and minimal maintenance. It is manufactured and backed by the most dependable manufacturer in the industry and is a smart option for entrance into the wide format graphics market.

The SEAL 54 EL provides the following features:

Optimum performance

- High quality professional finishing results
- 1400mm working width
- Manually adjustable nip up to 25mm/1inch
- Fast 4.25 m/min production speed
- Durable uni-frame (one piece) construction
- Proven SEAL quality

Ease of use

- Auto grip shafts for user friendly webbing
- Ergonomic control panel
- Flip up feed table for easy webbing
- Simple controls
- Minimal maintenance
- Small machine foot print, fits into the smallest work areas

Safety

- Foot switch for hands free operation
- Safety eyes for increased operator safety
- CE certified

The 54 EL is ideal for producing a wide variety of applications:

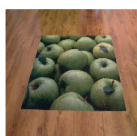

Rigid Indoor Displays

Flexible Indoor Displays

Floor Graphics

Backlit Displays

Pop-Up Displays

Rigid Outdoor Displays
